

PACKING LIST - Dummy Import Scenario

DUMMY TRAINING DOCUMENT - NOT LEGAL, TAX, OR CUSTOMS ADVICE - DO NOT USE FOR REAL IMPORT / EXPORT OPERATIONS

Purpose: A packing list explains how the cargo is physically packed. It is not mainly about value. It helps customs, carriers, warehouses and brokers reconcile boxes, pallets, containers, weights and measurements.

Exporter	Importer	Packing List No.	Date
Shenzhen Parts Co.	Industrias Norte MX, S.A. de C.V.	PK-SZ-88021	2026-01-11

Container No.	Seal No.	Package type	No. packages	Gross KG	Net KG	CBM	Marks
MSCU1234567	SLCN99821	Pallets	12	4,100	3,760	18.2	INM/QRO/01-12
MSCU7654321	SLCN99822	Pallets	10	3,780	3,420	16.9	INM/QRO/13-22
TGHU5551112	SLCN99823	Cartons	180	2,600	2,310	11.4	INM/QRO/23-202

SKU	Description	Qty	Unit	Packages	Origin
ADP-65W	Power adapter module 65W	800	PCS	80 cartons	China
USB-C-1M	USB-C cable assembly	1,000	PCS	100 cartons	China
CN-KIT	Replacement connector kit	400	SET	12 pallets	China

Key fields AI should extract: container IDs, seal numbers, package count/type, gross and net weight, CBM, marks, SKU, quantity and origin.

Common rules/checks: container count should match the BL; quantities should match invoice and PO; total packages/weights should be reasonable; origin should not contradict invoice or MVE; marks should help trace packages physically.
